

Early Departure from the Performance

- Due to the pandemic we are this year only, not encouraging the entire audience to remain for the entire performance.
- You are more than welcome to stay for the entire performance. Please let us know in advance so that we are clear about how many students we need to accommodate and distance for the entire performance.
- If your student is performing in only one or two dance numbers and you want to leave the performance before everyone has danced, please be sure to let us know in advance and wait for house lights before leaving.
- We've asked the Civic Center to raise the house lights after each section (after approximately every five (5) dance numbers) to safely accommodate early departures.
- Please, even though you may have to sit through a few extra numbers, be sure to wait until the end of the section for the house lights to go up before leaving the auditorium. All of us will very much appreciate your consideration and thoughtfulness.
 - This allows everyone who is leaving to be aware of others in the space and maintain proper distancing protocols.
 - It also makes sure audience leaving the space will not interfere with the dancers who have not yet performed or detract from other family's enjoyment of their student's performances.
 - Also the extra time will help us to locate your student and their belongings and have them ready to go when you arrive at the check-in location to pick them up.
